

Hello fellow campers! My name is Edmund Miles and I'm running for B Section.

A little about me; currently married for 19 years and together for over 25 years to my wife Jen. We have 4 children Amber, Kara, Mark and Brayden. We've been in the campground since 2014. Spent 7 yrs. In D section and moved to B section last year.

Work history; 4 yrs. In the United States Navy serving on the USS Charleston (LKA-113) and the guided missile cruiser USS Wainwright (CG-28). Completed 2 tours in the Mediterranean during the 1st Gulf War. The past 3 years some of you may know me from doing internet lines at the campground. I have met some amazing campers and have become friends with most during this time. For 20 years I worked for Campbell Transportation Company as an Environmental, Health and Safety Officer. For the last 6 years and currently working for Imperial River Transport as a Compliance Manager. Both companies own and operate towboats, barges and shipyard facilities. Leading roles include regulatory compliance, permit writing for stormwater, wastewater and hazardous waste disposal. I also work with the United States Coast Guard and OSHA doing towboats and employees accident investigations.

Why am I running for board? I want the campground to be a good vacation spot for all age groups. Do what is needed to get our infrastructure (sewage system, water lines, internet lines and roads) up to date. I will have the campers' best interests in mind. Anyone can feel free to discuss what's on your mind. I'll listen, provide assistance when needed and make sure the membership's voices are heard. I'm not a "yes man!" and I don't beat around the bush.

I/we need to work together to get this campground where it needs to be so that many more generations to come can enjoy our campground. I'll be around to introduce myself or feel free to stop by/text/call at your convenience. My lot is B253 Rocky Road. I look forward to meeting with and working for the campground. Thank you and God bless!
