

Hi all!

I just wanted to take a second to introduce myself as I am running for the board in this upcoming election. My name is Braehm Brown, and I am running for B section. You can find me at lot B260 or B273. I've been coming to SRCA since I was a kid, and I feel as if the campground lost its family first atmosphere. My motivation for running is to re-unite the campground and really bring my section, and others, into the boardroom every month. I will work to really* get the opinions of not only members in my section, but members of the campground and bring their voices to the board room. I believe that my young, youthful energy can help inspire not only the existing board, but our members, the future board, and importantly our youth to really unite and bring SRCA back to the family first mentality. I feel that our youth and teens are not quite as involved as we/they once were. I hope to lead the charge and really involve the future of our campground. I want to see respectful dialogue between members and board members alike, and don't want anyone in my section to feel uncomfortable bringing forth issues they feel need a solution to. I'm not one to use the "board transparency" shtick as I feel it has been overused and lost it's meaning, however, I will say if an issue is brought up, the membership will know when I know. It takes everyone to make SRCA as amazing as it is, and I feel our members can be the ones to help make decisions that affect us as a whole, especially with our capital fund and finances especially, that is everyone's money, and everyone contributes i.e, yearly dues and assessments, therefore everyone should have a voice in decisions made with their money, I want to be that voice. I implore any and all members that doubt me for my age to have a conversation with me, either in my facebook messages, at my lot, or at the upcoming board member meet and greet. I want to be the voice of the campground, that can only be achieved by proper dialogue and discussions that I can take into the meeting room with me. I'm looking forward to meeting you at the meet and greet.

Thank you,

Braehm Brown

B260 & B273
