

William J. Haye
Section A
Lot # A83 - A85 Squirrel Blvd.

Membership,

I would appreciate your consideration in the upcoming election for A-Section director. Since I would like to see the campground continue to make updates and improvements to our aging infrastructure, I feel my work history and background would make me an asset to our campground board. My entire work history was spent working in the engineering business as a Land Surveyor and Construction Inspector. Before my retirement in 2021, I spent the last 23 years of my career working for a Pittsburgh municipal engineering firm where we would design, manage, finance, and implement projects for our municipal clients. As a Lead Construction Inspector, I would work with quality control and work as a liaison between the project manager, contractor, and our clients. My work included approving monthly payments to the contractors on multi-million dollar infrastructure projects. In order to continue updating our aging infrastructure, we need to find ways to build our capital account, so that future assessments for these projects could be greatly reduced.

I would also like to work for better member/board relations by being transparent and by doing my best to answer questions or get answers to questions when asked by the membership. In closing, I hope A-section will give me serious consideration when voting in the upcoming election.

Sincerely,
William J. Haye
