6 Months	\$185.00

*Additional options available.*

**It's easy to get online with Fast Wave's fast and reliable Wi-Fi service.**

1. Connect to the strongest Fast Wave signal (SSID) using your smartphone, tablet or laptop.
2. Open the web browser on your smartphone, tablet or laptop.
3. Visit [FastWaveNetworks.com/sign-up](http://FastWaveNetworks.com/sign-up) (any other website will redirect to this page).
4. Select the correct access plan & complete the sign up form.

**Fast Wave supports additional devices** such as gaming systems, DVD players, Blu-ray players, smart TVs, Roku and more. Service costs just \$9.95/month per device with a one-time activation fee of \$5.95. Purchase access at [FastWaveNetworks.com/store](http://FastWaveNetworks.com/store).

**How to maximize your Wi-Fi signal:**

Locate your device close to a window, away from other devices such as cordless phones, baby monitors and microwaves (all of which may cause interference) and with no obstructions between you and the closest access point (such as dense trees or buildings).

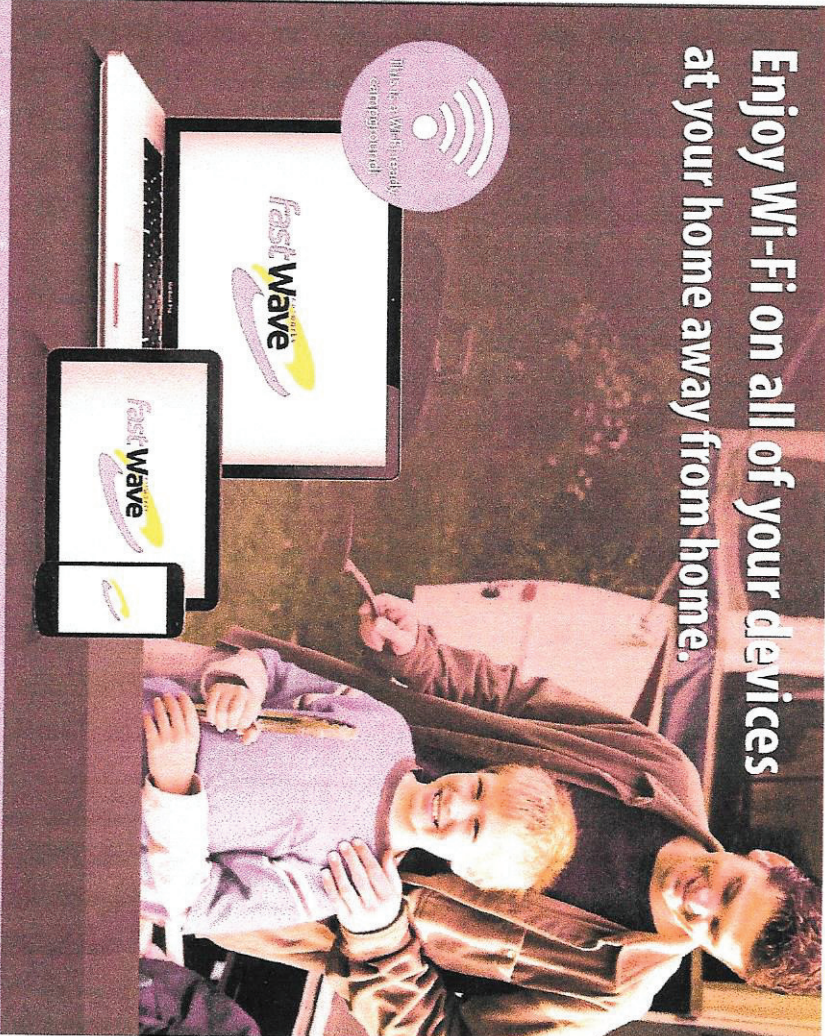

**How to avoid slow speeds:**

Make sure you have the latest equipment and software as older devices and software may not be able to handle greater speeds. Also, Spyware, viruses, automatic updates and additional applications that run on your devices undetected can slow down your Internet speeds.
