

Good evening membership,

My name is Justin Bosilovich I am running in D Section for this year's election. I have been on the board the last 2 years. This year was my first year as Treasurer and I feel that between myself and the finance committee and oversight committee we have turned around the finances of the campground. What I mean by that is we are no longer robbing Peter to pay Paul. We know what money should be in what account and money is being moved every month from operating to capital, instead of moving money once a year at the end. I have also changed the assessment account at FNB into a money market account that gives us .06% interest a month. I have also opened a capital account at FNB and that too is a money market gaining the same interest rate. It also has check cashing ability, that helps when a resolution is opened by the board to buy a capital expenditure we can write a check out of capital instead of moving money to operating. That will make things less confusing for the office and money does not need to move from different accounts all the time.

My experience outside of the campground is in management, in every job I have held I have reached some level of management. I also have experience working with budgets and staying with a budget for the year. I also have an Associates Degree in Accounting.

In closing I would just like to say that I have seen what can happen on a board when you have someone that does not understand finance and you just have people winging it. I want to stay on the board so I can keep the campground going in the right direction financially so that the campground can be around for generations to come.

When you get your ballot please vote, and give myself some serious thought as I feel I am the best choice in D Section.

Thank you for your consideration

Justin Bosilovich
